

Service CreateEmployment20110401

Navn

Web Service: CreateEmployment20180101
Operation: CreateEmployment20180101

Formål

Formålet med denne operation er at kunne oprette en person med et tilhørende ansættelsesforhold i SD Løn. Ansættelsesforholdet oprettes med statuskode 0 "Ansæt ikke i løn".

Adgang

For at få adgang til servicen:

Kontakt jeres kundeansvarlig ved Silkeborg Data for afklaring og udarbejdelse af kontrakt, hvorefter der oprettes en systembruger til brug for kald af denne service.

Tilgang

Metoden stilles til rådighed via HTTP transport protokol over en sikker forbindelse (SSL). Der anvendes XML-baseret SOAP protokol, så kommunikationen sker via XML. Service description sker via generet WSDL.

Der anvendes HTTP Basic-autentifikation, hvilket betyder, at brugernavn og adgangskode skal angives i HTTP header. Bemærk at "sy" skal være foranstillet brugernavnet.

Metoden samt request af WSDL kan også manuelt udføres via <https://service.sd.dk/sdws>

WSDL'en kan også læses direkte fra et udviklingsværktøj: <https://service.sd.dk/sdws/xml/schema/sd.dk/xml.wsdl/20180101/CreateEmployment.wsdl>

Input

Følgende input parameter kan angives:

XML navn	Beskrivelse
InstitutionIdentifier	Entydig identifikation på en institution.
InstitutionUUIDIdentifier	Entydig UUID til identifikation af institution i SD Løn. <i>InstitutionUUIDIdentifier kan anvendes i stedet for InstitutionIdentifier.</i>
PersonCivilRegistrationIdentifier	Personens CPR-nummer I Silkeborg Løn findes feltet "CPR-nummer" på billede 101 side 1 og i SD PersonaleWEB findes feltet "Cpr-nr."

	under fanebladet "Person".
DepartmentIdentifier	Identifikation af ansættelsesafdeling. I Silkeborg Løn findes feltet "Afdeling" på billede 101 side 1 og på SD PersonaleWEB findes feltet "Arbejdssted" under fanebladet "Ansættelse".
DepartmentUUIDIdentifier	Entydig UUID til identifikation af en afdeling i SD Løn. <i>DepartmentUUIDIdentifier kan anvendes i stedet for DepartmentIdentifier.</i>
JobPositionIdentifier	Identifikation af en ansættelsesstilling. I Silkeborg Løn findes feltet "Stilling" på billede 101 side 1 og på SD PersonaleWEB findes feltet "Stillingskode" under fanebladet "Ansættelse".
SalariedIndicator	Angiver månedsløn eller timeløn. Indicator sat til (true) = Månedsløn på fuldtid eller Månedsløn på deltid - hhv. kode 0 og 1 i Silkeborg Løn. Indicator sat til (false) = Timeløn uden automatisk løntrinsstigning - kode 2 i Silkeborg Løn I Silkeborg Løn findes feltet "deltidsbeskæftigelseskode" på billede 101 side 1 og på SD PersonaleWEB findes feltet "Timer" under fanebladet "Ansættelse". Månedsløn eller timeløn angives her lige efter personens navn.
SalaryHourQuantity	Løntimer: Angives altid pr. uge. Kan max sættes til 48 timer og timer over 37 sættes automatisk til 37 timer Attribut kan evt. angives: periode-Code="week". I Silkeborg Løn findes feltet "løndecimal" på billede 101 side 1 og på SD PersonaleWEB findes feltet "Timer" under fanebladet "Ansættelse".
PerformedHourQuantity	Præsterede timer: Tiltræder den ansatte på en anden dag end den 1. i måneden kan præsterede timer (a conto timer) angives i feltet "præsterede timer". Kan max sættes til 160,33 timer. I Silkeborg Løn findes feltet "a conto

	timer" på billede 101 side 1 og på SD PersonaleWEB findes feltet "Præstere-de timer" under fanebladet "Ansættelse".
ActivationDate	Ansættelsesdato (tiltrædelsesdato)
DeactivationDate	Hvis feltet udfyldes med datoen for fratrædelse oprettes der en tidsbe-grænset ansættelse.
CommentText	Kommentar felt. Denne kommentar medtages i mail'en der sendes til lønkontoret. Kommentaren vil kunne ses i SD Per-sonaleWEB. Der kan max angives 6000 tegn.

Felter med fed skrift skal altid være udfyldt

Oplysninger om personen hentes hhv. fra CPR-register eller Serviceplatform – alt efter hvad den enkelte institution har valgt af opsætning

Mail til Lønkontoret kan fravælges via Produktbestillinger, billede 644 i System Silkeborg Løn.

[Skema dokumentation : Input](#)

Output

Følgende oplysninger returneres:

XML navn	Beskrivelse
creationTime (Attribut på grundelement)	Viser kørselstidspunktet.
RequestStructure	Indeholder input.
PersonCivilRegistrationIdentifier	CPR-nummer. I Silkeborg Løn findes feltet "CPR-nummer" på billede 101 side 1 og i SD PersonaleWEB findes feltet "Cpr-nr." under fanebladet "Person".
PersonGivenName	Fornavn til en person I Silkeborg Løn findes feltet "Navn" på bil-lede 101 side 1 og i SD PersonaleWEB fin-des feltet "Navn" under fanebladet "Per-son".
PersonSurnameName	Efternavn til en person I Silkeborg Løn findes feltet "Navn" på bil-lede 101 side 1 og i SD PersonaleWEB fin-des feltet "Navn" under fanebladet "Per-son".
EmploymentIdentifier	Entydig identifikation for et ansættelses-forhold indenfor en givet institution.

	I Silkeborg Løn findes feltet "Tjenestenummer" på billede 101 side 1 og i SD PersonaleWEB findes feltet "Tj.nr." i den øverste linje.
EmploymentDate	Ansættelsesdato for en ansat. I Silkeborg Løn findes feltet "Ansættelsesdato" på billede 101 side 1 og i SD PersonaleWEB findes feltet "Oplysninger pr." under fanebladet "Ansættelse".

I tilfælde af fejl returneres SOAP Fault Element

CivilRegistrationNumber (PNR)

Description:

Unique identification of a person

The Civil Registration System contains:

- Data on persons, who after 1968 April 2nd

Danish registry of citizens.

As for Greenland the corresponding date is 1972 may 1st.

- Danish citizens living outside Denmark (who must pay duty and ATP)

has also been given a civil registration number.

- Civil registration numbers are also assigned for other administrative purposes.

Value space:

The civil registration number consists of two parts.

The first part is the valid birthday in the form DDMMYY.

The following part is a serial number of four digits.

The civil registration number may also hold the value 0000000000.

This value is used where the civil registration number is required but unknown.

Lifecycle:

The civil registration number is generated and assigned at birth, entry and change of civil registration number of for administrative reasons.

The civil registration number may be assigned via hospitals.

The civil registration number is not to be deleted.

Remarks:

1994 June 11th the civil registration number was changed according to this description.

cpr20050318:PersonCivilRegistra...

CivilRegistrationNumber (PNR)

Description:

Unique identification of a person

The Civil Registration System contains:

- Data on persons, who after 1968 April 2nd Danish registry of citizens.

As for Greenland the corresponding date is 1972 may 1st.

- Danish citizens living outside Denmark (who must pay duty and ATP)

has also been given a civil registration number.

- Civil registration numbers are also assigned for other administrative purposes.

Value space:

The civil registration number consists of two parts,

The first part is the valid birthday in the form DDMMYY.

The following part is a serial number of four digits.

The civil registration number may also hold the value 0000000000.

This value is used where the civil registration number is required but unknown.

Lifecycle:

The civil registration number is generated and assigned at birth, entry and change of civil registration number of for administrative reasons.

The civil registration number may be assigned via hospitals.

The civil registration number is not to be deleted.

Remarks:

1994 June 11th the civil registration number was changed according to this description.
